@Pullman hotel , Brussels

SLN in Head and Neck Cancer

Invitation to 2nd SLN symposium:

Expert Training & Panel Discussion

RIZIV/INAMI accreditation requested

Dear Colleagues,

I would like to invite you to our 2nd SLN symposium on the Sentinel Lymph Node technique for the management of patients with head and neck cancer. Using SLN provides a targeted approach, which can limit the morbidity of the lymph node neck dissection or radiotherapy and should be considered in the treatment of H&N cancers.

With our program we want to help to introduce H&N SLN, with a maximal accuracy delivered by a team of people and services working together. The symposium will be followed by a discussion on the pros & cons of the SLN technique

12.30 - Welcome - Lunch

13.00 - SLN symposium

The patient's journey

Nuclear medicine: Preparation, Injection & Imaging

SLNB Surgery & Pathology / SLN guided Radiotherapy

16.00 - 17.00 Discussion

We're looking forward to welcoming you to our meeting in the Pullman hotel , next to the Brussels South/Midi train station

Best regards,

Prof. Georges Lawson

Prof Lawson (ORL), Dr Daisne (RT),

Prof Vander Borgh (NM), Prof Nollevaux (Path)
